DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on March 23, 2009, the examiner has carefully considered the amendments. The amendment to claims correcting the misspelled words "oligomer" and "isocyanate" in claims 1, 12, 25-26 is acknowledged and has been entered. This amendment does not affect the findings of the claims as found in the last office action dated December 12, 2008. Please find the reasons for allowance restated below.

Allowable Subject Matter

1. Claims 1-3, 5-14, 17, 19-22, and 24-26 are allowed.

2. The following is an examiner's statement of reasons for allowance: the prior art alone or in combination fail to teach and/or express the instantly claimed process for producing a gasket molding material, wherein said material comprises a UV curable liquid polyurethane resin having a viscosity at 25 °C of 150, 000 to 1, 000, 000 mPa*s comprising reacting a composition comprising a polycarbonatediol having a molecular weight of 500 to 5000, a trifunctional alcohol and diisocyanate, and a diisocyanate in the presence of a (meth) acrylate compound having the general formula as defined in instant claim 1 and a dimethacrylate compound of an alkylene glycol whose alkylene group is substituted by a lower alkyl group having 1 to 5 carbon atoms and adding a terminating hydroxyl group containing (meth) acrylate. Nor does the prior art alone or in combination teach a method of making a HDD gasket material comprising the above defined UV curable liquid as defined above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
